Thanks to everyone who attended this month's Apartment Managers' Meeting. This meeting and its participants have been the driver for much of the positive change in our community. Our next meeting should be interesting for everyone. The YMCA has invited us to have the meeting at their 34th Street location to see their newly remodeled facility and to discuss services that the Y has to offer.

Occupancy Report

This month we are distributing the January occupancy report. If you did not attend the January Apartment Manager's Meeting please email your occupancy numbers to Melanie Fahey at melfahey@nearnorthwestdistrict.com so we can have the most accurate and complete listing possible.

Livable Centers Study

This study funded by the Houston Galveston Area Council and Near Northwest Management District is underway! An urban planning team has been chosen and community stakeholder meetings will be held beginning in February. The purpose of the study is to have an expert offer recommendations about structural changes that will improve our community. As some of the most committed members of our community, we look forward to seeing apartment community input into this study. We will have more information about this at the February Managers' Meeting.

Upcoming Events

Security Meeting, February 8, 9 am, District Office
Business Network Breakfast, March 3, 7am, Café Red Onion
